

## G4

This is the most versatile loudspeaker in the Line Up series, and may be used in professional as well as residential environments. Built to last and with a timeless design. Powerful yet discreet. Available in black or white.

① Thanks to a handy dial, you can switch from 8 to 16 ohm. This allows you to hook up four loudspeakers to a conventional amplifier without overloading it.

② This specially designed bracket is multi-functional. You can use it as a base, wall bracket or even as a ceiling bracket. Thanks to the ball and socket joint, you can align it in any direction you like, using each of the three options. Comes complete with screws.

<b>system</b>	2-way
